**FAYAT Group at the 17th World Congress
on Road Winter Service, Resilience and Decarbonization**

The FAYAT Group will be taking part in the 17th World Congress on Road Winter Service, Resilience and Decarbonization, to be held in **Chambéry from 10 to 13 March 2026** on the theme of “Ensuring road excellence in all seasons”, with 62 countries attending the event.

The FAYAT Group, exhibiting on **Stands 54 to 60 in the France Pavilion**, alongside Routes de France, FNTP, IDRRIM-PIARC France, Cerema, the French Ministry of Transport and the Interdepartmental Roads Directorate (DIR), plays a central role in the **French road excellence sector** and rolls out its expertise in France, across Europe and internationally, joining forces to reinvent sustainable mobility.

This expertise is underpinned by its subsidiary Razel-Bec, a key player in the civil works sector, and by the Group’s industrial firepower as a world leader in road equipment through its flagship brands: BOMAG, Dynapac, LeeBoy, Mecalac, Secmair, ADM, Ermont, Marini, SAE, Dulevo, Mathieu, Ravo and Scarab. The Group offers innovative and sustainable equipment solutions covering the entire road life cycle: construction, maintenance, renovation, cleaning and urban development.

The FAYAT Group reaffirms its commitment to sustainable high-performance infrastructure that meets today’s and tomorrow’s environmental transition and climate resilience challenges.

About FAYAT

Operating in 170 countries and drawing on the dedication of more than 23,000 employees, the FAYAT Group services its clients worldwide, providing innovative and sustainable solutions for the construction market and in its seven core business lines: Civil Works, Foundations, Building, Energy Services, Metal, Pressure Vessels and Road Equipment.

The Group’s turnover for 2025 was €5.9 billion.
